How women and girls may get wanted relief from functional periodic pain
Cardui is a liquid medicine which helps women, as it brings relief from the stress-like aches and backaches of this functional period. Cardui is one of the best known medicines for this purpose. How it may help:
1 Take Cardui regularly, and it helps build resistance for the "time" to come.
2 Started 2 days before "your time," it helps relieve pain due to this functional periodic cause.
Try Cardui. If it helps, you'll be glad you did.

From where I sit ... by Joe Marsh

Shaking Heads and Human Liberties

It's a funny thing. Now that the war's over, there's a lot of head-shaking in our town. People saying: "What's the younger generation coming to?" "How can we end these strikes?" "The country's going to the dogs!" "There ought to be a law!"—etc.

But when the younger generation was walloping the Axis "supermen"—and labor was doing the most colossal job in history—you never heard a murmur. But now that we're back to our traditional life of personal liberty, just see how the heads begin to shake and

I guess there'll always be head-shakers—folks who feel "there ought to be a law"—some kind of that the best form of regulation suppression, whether it's applied of the extreme illness of to beer or baseball.

But from where I sit, Americans done pretty well with the idea personal choice and individual erty. I guess that's just the Americans are made.

Joe Marsh

Minute Steaks in Five Seconds Electronically

NO, LADY, it isn't a printer's error nor an idea out of Flash Gordon's world. It is true that electronic cooking CAN turn out a perfectly cooked steak in a mere twelfth of a minute . . . and what's more, it isn't charred black on the outside and dripping rare on the inside, but uniformly cooked all the way through! Mm-m-m!

BUT PUT THAT TELEPHONE DOWN . . . don't call your appliance dealer yet! such equipment at present is first cousin to a radio broadcasting transmitter in appearance . . . and it has a price tag with five figures on it, not counting the two after the decimal. So for now it's chiefly in the realm of the large commercial processors.

YOU CAN STILL DREAM, THOUGH . . . and there's one "dream" you can realize soon. For modern automatic Electric Ranges will soon be more abundantly available and ELECTRIC cooking definitely means better meals with less time and work. With electric cooking, too, uniform results are yours because electric heat is easily and accurately controlled.

ALL THIS AND TIME OUT, TOO . . . because of automatic timing devices on new Electric Ranges, you can set the controls, place the food in the oven, and set the switches so that the correct heat is turned on and off at desired intervals. Thus, you may leave the house when you wish and return to find a perfectly cooked meal waiting!

SO, UNTIL IT'S ELECTRONICALLY YOURS . . . cooking can be ELECTRICALLY yours: cool, clean, fast, accurate and economical. And your business-managed electric company will continue to bring you plenty of electricity at the cheapest rates in history. Your appliance dealer should have good news for you soon . . . even if it doesn't mean steaks in five seconds.

Many of the 179 official world and international air records which were set up between 1906 and 1936 established a speed of 25 miles per hour in the air, and when the war ended such records, will go by the board this year. The 1946 records were divided among some 50 classifications and were held by the airmen of 9 countries.

American planes flying to South American countries have to carry ing to cargo and passengers. All the documents have to be certified by the captain of the plane.

The simple rules of precaution will prevent many a costly forest fire from destroying valuable acres of Virginia woodland.

SMOKERS and CAMPERS
ONE-THIRD OF ALL FOREST FIRES IN VIRGINIA ARE CAUSED BY SMOKERS AND CAMPERS.
They kill little trees . . . destroy timber needed by industry . . . cause soil erosion and floods . . . spoil recreation and scenic areas . . . and make poor hunting and fishing.
HERE'S HOW
TO BE CERTAIN YOU'RE SAFE
Smokers • Campers

Be sure your match is out

Crush out your cigarette

BEFORE BUILDING FIRE, clear a wide space, free from grass, leaves and other inflamable material.

Put your ashes in earth

Use the ash tray

BEFORE LEAVING FIRE, drown with water or cover with dirt. BE SURE IT'S DEAD OUT.

KEEP VIRGINIA GREEN
